

follows:- A printed form is given to the people desiring the use of it and then it is presented to the colonel and action is taken on it. The man who engages the armory from the colonel must live up to the requirements that are stated in the said contract.

From Mr. F. secured Mrs. M. Williamson's address which is 4715 Foster Avenue, Long Island City.

Dater proceeded to the said address and interviewed Mrs. Williamson, who is a woman about 5 ft. 6 in. in height, medium built, premature gray hair. She informs me that she was first employed at the Hotel Ansonia in January 1925 and left about December 15th, 1925. That she knew Mrs. Clara B. Lapham very well in fact they generally ate together at the hotel, also that Mrs. Lapham started to work at the Ansonia in the early part of February 1925 and was still working there when Mrs. Williamson left in December, and the position she held was that of night housekeeper. That Mrs. Lapham told her she was a nurse and that she came from New Bedford, Mass. Also that she had a husband who at one time had a saloon there, but they were not living together up until the last time she knew Mrs. Lapham. She could not give me any information as to her present whereabouts or address, only that when Mrs. Lapham secured employment at the Ansonia Hotel, Mrs. Williamson made out a card on which Mrs. Lapham gave a pedigree and history about herself, a sort of reference card. She believes that the hotel should have this card at the present time. I also secured from her the address of the housekeeper in charge at that time, who is a Mrs. A. M. Carroll and her present address is 4241 Marathon Street or Avenue, Little Neck, L.I. It is her belief that Mrs. Carroll can give much information concerning Mrs. Lapham.
